

### Editing Photos:

For this assignment, you will be editing 3 photos (each one using 5 different editing tools). The program we will be using is <https://kleki.com/>

Here are videos explaining how to work the program:

Spend about 5-10 going through the program and testing out the different tools to familiarize yourself with the tools. Once you feel comfortable with the presented options, you will choose 3 photos you would like to edit (change it from the original picture- see examples below). You will put the original photos and the edited photos on a word document just like this and email it to me: [Alexandra.Ogle@bsd.k12.de.us](mailto:Alexandra.Ogle@bsd.k12.de.us) and list the 5 editing tools you pick for each picture. You should have 6 total pictures (3 originals and 3 edited photos). Make sure each group includes the tools you chose to use like you see below.

### Example 1:
